

## **Planned Pethood Clinic Vaccination & Wellness Services Policy:**

### **NO SERVICES EVER PROVIDED TO UNALTERED ANIMALS!**

Animal Alliance requires that any animal coming to its Planned Pethood clinic for vaccines, microchip, nail trims, or any service other than spaying or neutering MUST show proof of spay/neuter or the pet must be getting spayed/neutered that same day at Planned Pethood.

**We WILL NOT administer vaccines or provide any wellness services on an animal that is not spayed or neutered.**

**First and foremost, Animal Alliance's Planned Pethood is a SPAY/NEUTER clinic and as such, its primary mission is to ensure animals are altered.**

Proof of neuter (MALE) includes a certificate of neuter or provided by a veterinarian or a visual exam by a member of the Planned Pethood staff verifying the absence of testicles.

Proof of spay (FEMALE) includes a certificate of neuter or similar documentation provided by a veterinarian.

**There are NO exceptions.**
